

CHAMBERLAIN ASSOCIATION OF AMERICA
“CHAMBERLAIN COLLECTION”
Contents of Grey Box No. 49
prepared by George Richard Chamberlin

Below is an Alphabetical Place Index to the un-published Work of the earliest Chamberlain Genealogical Society found in the *Chamberlain Collection*, New England Historic and Genealogical Society, Boston, MA

Grey Box 49

It appears from notices for Annual Membership meetings from 1911-1935, prepared by the Corresponding Secretary that the *Chamberlain Association of America*, (hereinafter referred to as the CAA), desired to publish a book documenting the first eight or nine generations of Americans with the Chamberlain surname.. See Grey Box #08.

This book was to be entitled, *The Chamberlain Genealogical and Historical Book*, (hereinafter referred to as *The Chamberlain Book*). The book was initially expected to be finished in one or two years, however, the work was never published!

The first written reference to such a book was made by Assistant Executive Secretary of the CAA, Jennie Chamberlain Watts, in a one page summary following the 1911 Annual Membership Meeting.

At that meeting in 1911, Reverend Charles Henry Pope, author of “*The Pioneer of Massachusetts*,”¹ was retained to write the book expected to be completed within a year. Inquiries concerning the book were made by interested members as late as 1955.

By the 1915 Annual Membership meeting Rev. Pope, had, “all of the manuscripts on hand for completion and final revision before publication,” however the manuscripts were never printed and published.

David Conrad Chamberlin and Louise Alston Chamberlain, at different times before 1972, both reported the existence of a suitcase containing Chamberlain manuscripts.

Today, neither the manuscripts, nor the suitcase, with its contents can be found.

In Grey Boxes numbered 47, 48, and 49, are thousands of small colored index card size pieces of paper. On each small piece of paper is a name and a page number, nothing else. Box #47 consists of first names only; Box #48 consists of Surnames only; and Box #49 consists of names of towns or cities, only. After a close examination and the page numbers it appears that these colored pieces of paper are the index for the missing Chamberlain Book. We do not have the book but what we have is the index of first names, surnames, and towns, found in the book.

According to Louise Alston Chamberlin the small color coded cards found in boxes 47, 48, & 49 are color coded for each of the original five Chamberlain immigrants as follows: Edmond-Yellow; Henry-Green; Richard-Pink; Thomas-Drab; William-White.

¹ Pope, Reverend Charles Henry, *The Pioneers of Early Massachusetts, a Descriptive List, Drawn from Records of the Colonies, Towns, and Churches and Other Contemporaneous Documents* (reprinted by Baltimore Maryland, Genealogical Publishing Company, Inc., 1998.

As found in the archives of the Chamberlain Collection originally compiled by members of the Chamberlain Association of America. The original compilation is found at the New England Historic Genealogical Society, Boston, Massachusetts. This transcript prepared by the World Chamberlain Genealogical Society. Copyright 2010

Concerning the color coded cards, the reader should be aware that some of the cards now have faded colors and some cards have suffered color change. For example,, some cards now appear gold! Too compound the problem, after scanning, some of the pink and white cards are difficult to distinguish and some of the Drab and Green cards are also difficult to distinguish..

Concerning the spelling of names, sometimes handwritten notes are difficult to read and transcribe..

The investigative and thorough researcher is advised to take the list of names as presented below and compare the list to the actual cards of interest found in Grey Box #49 located at the NEHGS in Boston.
